Thailand is the strongest pétanque nation outside France. The national team topped the medal table at the 2023 World Championships in Benin with 3 golds, and has won 10 world golds since 2010. Roughly 40,000 licensed players roll on courts in public parks, army bases and villages in every province. Your club plays friendlies against Thai clubs on their own ground, and between the matches we run the Thailand we know: the river, the waterfalls, the food.
